

DENVER CLIMATE ACTION REBATES

Help Denver go green! The city is incentivizing the deployment of highly efficient, all-electric energy equipment for Denver residents.

Rebates are available starting Friday, April 22.

Eligible Equipment	Denver Rebate Value (up to 80% of the total cost)
 e-bikes	\$400 (\$1,200 income qualified)
 EV charging home wiring	\$1,000
 Air source heat pump	\$7,200 (high efficiency) \$9,000 (cold climate)
 Ground source heat pump	\$1,800/ton up to \$9,000
 Mini-split heat pump	\$4,500 \$5,400 (cold climate)
 Heat pump water heater	\$1,400 (high efficiency) \$3,200 (smart)
 Solar*	\$1.00 per watt-DC, up to \$4,000 (*only available with heat pump install)
 Battery storage*	\$2,750 (*only available with heat pump install)
 Electric service upgrade*	\$2,000 (*add-on to above equipment)

Learn more and apply for an e-bike voucher at www.denvergov.org/ebikes

Rebates for home energy equipment are applied as a discount at the time of purchase. Higher rebates covering up to 100% of costs are available to income-qualified homes. Learn more and find an approved contractor at www.denvergov.org/homeenergy
